International Business Development Engineer – Contract Manufacturing (Medical Devices)

OEM & Contract Manufacturing Sales | RFI / RFP / RFQ Management | Technical Sales & Specification Interpretation | Sales Pipeline Development (HubSpot CRM)
Cross-Functional Coordination (R&D, Production, Quality) | Catheter & Cleanroom Manufacturing Exposure | Sales Analytics & Data Visualization (Power BI)

PROFESSIONAL EXPERIENCE

Business Development Managing Engineer | MAJiK Medical Solutions Pvt.Ltd. | INDIA

November 2023 – Present

- Served as the primary commercial point of contact for RFI, RFP, and RFQ enquiries, ensuring timely, accurate, and technically aligned responses.
- Generated and managed qualified domestic and international leads using HubSpot CRM and LinkedIn Sales Navigator, strengthening the structured sales pipeline.
- Collaborated with R&D and engineering teams to align customer specifications, technical feasibility, and proposal documentation during product development discussions.
- Led technical and commercial discussions with customers for catheter-based and cleanroom-manufactured medical devices.
- Group-level exposure across multiple medical device manufacturing verticals.
- Contributed to regulatory-aligned processes with exposure to ISO 13485 quality systems, FDA, and CDSCO guidelines within a controlled manufacturing environment.

Mechanical Engineer | Pennar Industries Ltd | INDIA

June 2016 – November 2016

- Supported design and development of mechanical components and assemblies using CAD tools.
- Assisted production and quality teams in manufacturing process improvement and validation activities.
- Coordinated with commercial and operations teams for costing inputs and technical documentation support.
- Gained hands-on exposure to shop-floor operations, production planning, and workforce coordination.
